

myCourses – Backup/Restore

This document will go over how to back up your course in the old version of myCourses and restore it to the new version.

- Login to the old version of myCourses and navigate to the course you'd like to back up
- On the left hand side of the screen, under Administration, click **Backup**.

- On this screen you will see all the activities and assignments that are in your course. By default everything is checked as well as the user data. You DO NOT, however, want to backup the user data, so on the right at the top, you'll need to click **None** to deselect the student data. (User data consists of student uploads, forum posts, etc.)

Chapter 20/21_PowerPoint Identification

User Data

- Scroll down to the bottom of the page and make sure that “Users” is set to **None**, and “User Files” is set to **No**. Everything else can be left as is. Click Continue.

Backup completed successfully

[Continue](#)

- On the next screen, you will see the backup file under the Files, backupdata folder. Click the backup file and choose to save it to your computer. (Depending on the size of the file and your internet connection, this could take a few minutes to finish downloading. If you're on campus, it should not take very long to download.)

| | Action | Name | Size | Modified |
|---------------------------|--------------------------|--|-----------|----------------------------|
| | Parent folder | | | |
| Unzip List Restore Rename | <input type="checkbox"/> | backup-art_1441.25_fall_2012-20121128-1535.zip | 329.3MB | 28 November 2012, 03:36 PM |
| Edit Rename | <input type="checkbox"/> | restorelog.html | 108 bytes | 6 August 2012, 10:40 AM |

With chosen files...

Make a folder Select all Deselect all Upload a file

- Now that you've save the backup file to your computer, log in to the new version of myCourses and then into the course you would like to restore the backup to. To avoid any file size errors, click **Edit settings** in the Settings block to increase the maximum file upload size

- Click the “Choose a file...” button.

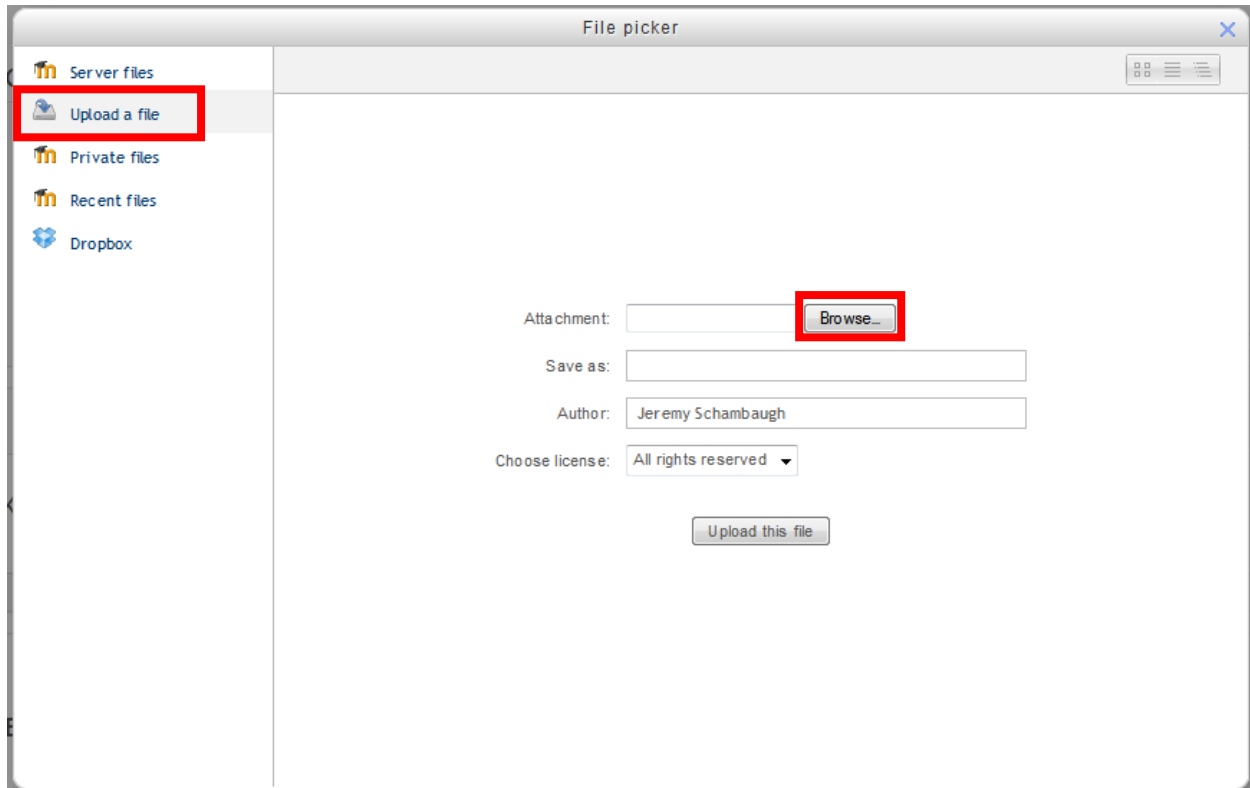

IMPORT A BACKUP FILE

Files

You can drag and drop files here to add them.

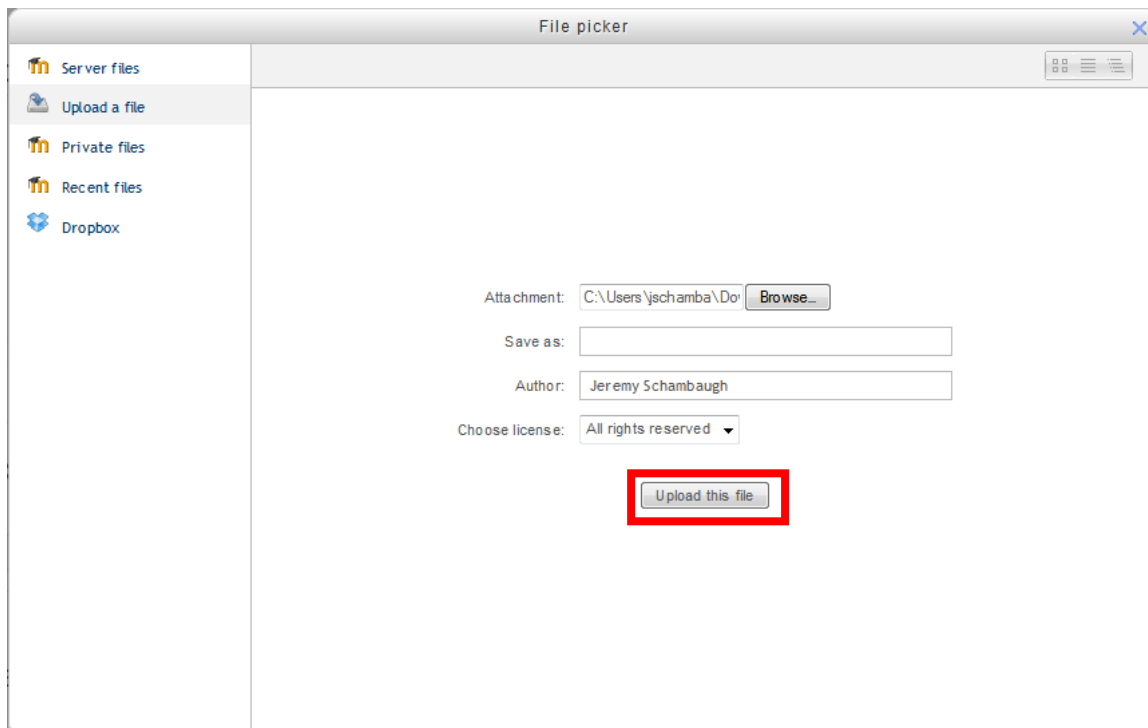

- In the File Picker dialog box, make sure that “Upload a file” is selected on the left side and choose the browse button in the middle of the box to browse for the backup you downloaded to your computer.

- Browse to the location that you saved your file, choose the file, and click the **Open** button.

- Click the **Upload this file** button. (Depending on the size of the file and your internet connection, this could take a few minutes to finish downloading. If you're on campus, it should not take very long to download.)

- You'll see that the file has now been placed in the white box area, click the **Restore** button

IMPORT A BACKUP FILE
